EDUCATION

- **Indian Institute of Information Technology, Kottayam**   Kerala, India
  Bachelor of Technology - Computer Science and Engineering; GPA: 8.05   *Aug 2023 - March 2027*

SKILLS SUMMARY

- **Languages:**   C, C++ , Java , Python , HTML , CSS , JavaScript, TypeScript
- **Frameworks:**   ReactJS, NextJS , NodeJS , Flask, Redux, Tailwind CSS
- **Tools and Platforms:**   Github , GIT , AWS , Stripe
- **Databses:**   MySQL, MongoDB

EXPERIENCE

- **Autron**   Kerala, India
  Software Engineer Intern   *July 2024 - Nov 2024*
  - ∗ Developing and maintaining full-stack web applications using Flask, React, Next.js, and PostgreSQL at Autron, focusing on enhancing performance and security.

- **SiteStitch LLC**   Kerala, India
  Software Engineer Intern   *Jan 2024 - July 2024*
  - ∗ Revamped website functionality with strategic rendering techniques and performance improvements in Next.js, Apollo GraphQL and Redux.

- **DefynWeb**   Delhi, India
  Frontend Developer Intern   *Nov 2023 - Dec 2023*
  - ∗ Integrated various third-party libraries and frameworks, such as Redux, Axios, and Material-UI, to enhance the website's performance and user experience.

PROJECTS

- **PinPointYT**:
  - **Web Extension**: A tool that allows users to bookmark specific timestamps in YouTube videos for easy reference and sharing. Whether you're watching tutorials, lectures, or any content where pinpointing exact moments is crucial, PinPointYT provides an intuitive solution.
  - **Tech Used**: Javascript, Chrome Extensions API

- **LUXCART**:
  - **E-Shop**: Implemented a modern and visually appealing user interface using NextJS, leveraging reusable components, state management, and routing to create a smooth and interactive shopping experience.
  - **Tech Used**: NextJS, MongoDB , NodeJs, Express.Js, Redux
  - **Live Hosting Link**: luxcart/adarsh.app

- **MEDICO APP**:
  - **Take your appointment**: This user-friendly application streamlines the process of scheduling appointments with healthcare professionals, enhancing patient experience and optimizing healthcare facility operations.
  - **Tech Used**: ReactJS, MongoDB , NodeJs, Express.Js , JWT
  - **Live Hosting Link**: medico/adarsh.app

- **MOVIX APP**:
  - **Explore:**: Movix is an innovative Single Page Web Application built with React and Redux, offering users a seamless and engaging movie exploration experience.
  - **Tech Used**: ReactJs, Redux
  - **Live Hosting Link**: movix/adarsh.app

ACHIEVEMENTS

- **Top 10 percent on Leetcode**:
- **Secured Rank of 115 in Inter- NIT coding competition - Codathon 2024 by scoring 425/700 - July, 2024**:
- **Global Rank 278th in July Long Challenge in Codechef**:
- **300+ days of consistent problem solving on Leetcode**:
- **Global Rank 364th in December Lunchtime in Codechef**:
- **Leetcode[1685] - 800+ Problems**:
- **Global Rank 1483rd out of 22000+ candidates in Leetcode Weekly Contest 343rd**:

CODING PROFILE
